

GOVERNMENT-FACING DIGITAL DELIVERY

Clearer public information. More usable staff workflows.

YRC helps teams turn hard-to-use public information and manual staff work into focused digital systems - websites, document libraries, forms, workflows, reporting, and small custom tools.

CORE CAPABILITIES

- **Public information systems**

Website modernization, content libraries, forms, navigation, metadata, and staff-editable templates.

- **Staff workflow tools**

Workflow mapping, status dashboards, portals, bounded automation, and supported integrations.

- **Delivery and handoff**

Scope, QA, acceptance conditions, documentation, training, and operational ownership.

COMMERCIAL WORK SAMPLES

Patterns relevant to a defined need

Maintainable websites and content; structured inspection and status workflows; connected public and staff activity with reporting visibility.

Commercial work samples only. They are not government past performance, agency references, or proof of an award.

A USEFUL FIRST PROJECT

Start with a bounded outcome.

An assessment or focused implementation makes the outcome, dependencies, acceptance conditions, and handoff visible before a larger commitment.

PROCUREMENT SNAPSHOT

LEGAL BUSINESS

YRC STRATEGIES

California stock corporation; active and in good standing when reviewed June 30, 2026.

SAM.GOV

Active registration

UEI ZAFSRK2VT8L6 | CAGE 22C63 | Renewal due June 30, 2027.

CALIFORNIA SB CERTIFICATION

State of California Small Business

Certification ID 2053713 | Approved July 18, 2026.

CAL EPROCURE

Registered sourcing bidder

Bidder ID BID0132231.

REGISTERED NAICS

541511

Additional codes: 518210, 541512, 541611, and 541990.

BUYER BOUNDARY

The SB certification and marketplace registration shown here are not an award, approved-vendor status, contract vehicle, federal set-aside certification, or government past performance.

Security requirements and data boundaries are confirmed before proposal; no CMMC, NIST, FedRAMP, clearance, or similar security status is represented.
